Alexandria, VA

June 2021

EXPERIENCE

Koya DocuTracker

Software Development Intern

Chicago, IL

June 2022 – September 2023

- Designed and implemented multiple interactive charts using React with TypeScript for reporting financing/trading agreements data, with features including drilldown and filtering functionality
- Created and improved on various custom React components, including a breadcrumb navigation trail and a drag-and-drop sortable list
- Contributed to new features, releases, and enhancements, as well as to performance improvement and code refactoring, debugging, and troubleshooting on the back-end using C++

UChicago Department of Mathematics

Course Assistant

Chicago, IL

January 2023 – March 2023

- Lead twice-weekly tutorial sessions for students in Calculus II and III, providing students with additional support and clarification on course material by communicating calculus concepts and principles through clear explanations
- Collaborate with course instructors to align tutorial sessions with course objectives and ensure consistency in teaching approach
- Grade and provide detailed feedback on weekly homework and quizzes for 10 students

ACTIVITIES & PROJECTS

University Theater

Committee Secretary, Stage Manager, Production Manager

Chicago, IL

September 2021 – Current

- Elected by members of the University Theater (UT) community to take and send minutes of weekly executive meetings to an email list of over 1,000 people, as well as maintain the website and serve as a liaison to UT productions
- Stage Manager: Tracked stage properties, handled logistics and scheduling for over 15 actors, and ensured a safe and comfortable rehearsal and show experience
- Production Manager: Oversaw 5 design departments and a 15-person production team, ensured timely completion of a multitude of production tasks, developed and managed a budget of \$2,500

Directed Reading Program

Student

Chicago, IL

September 2023 - December 2023

- Spent a quarter doing independent study of selected topics in computability theory under the guidance of a PhD student mentor
- Gave a short talk at the end of the quarter to an audience of approximately 20+ about the halting problem and its proof
